Date: Sunday, November 3, 2019 9:03:15 PM

CAUTION: External Email

Every grove of trees in Seattle is an ecological benefit. Destroying one reduces carbon removal and cleaner air, diminishes cooling in our warming climate, and means a loss of canopy that benefits birds, wildlife, and human tranquility. Trees also provide critical reductions in storm runoff into our lakes, river, and Sound.

Thank you for allowing public comment on Project 3018093 at 9666 51st Ave S. Please hold a public meeting to review the environmental and land use issues of the proposed clear-cutting of a large wooded lot bordering Kubota Gardens.

Thank you,

Susan Ward
